SUMMARY

Aspiring Software Engineer and BCA student with hands-on internship experience in software testing, Python scripting, debugging, and software development workflows. Currently expanding practical skills in software development while contributing to real-world projects. Strong interest in building reliable, efficient, and impactful software solutions.

INTERNSHIP EXPERIENCE

108 IdeaSpace – Software Testing & Software Development Intern | *Apr 2026 – Present*

- Completed 5 months of hands-on internship experience in a professional software environment.
- Gained practical experience in software testing, including functional testing, bug identification, debugging, and issue reporting.
- Worked with the team to understand software requirements and validate application features and workflows.
- Currently learning and contributing to software development, including implementation, debugging, and development workflows.
- Gaining practical exposure to WordPress and real-world software development and testing processes.
- Collaborating with team members to troubleshoot issues and improve application reliability and functionality.

Team ZenX – Software Support Engineer | *Feb 2022 – Mar 2022*

- Identified opportunities for process improvement within the team's workflow.
- Analyzed, diagnosed, and resolved customer inquiries via Telegram.
- Project: https://github.com/TeamZenX/TheVision

Team Eiva – Software Support Engineer | Varanasi | *Jul 2021 – Feb 2022*

- Developed scripts to automate processes within the software environment.
- Monitored system performance and identified potential issues before they became problems.
- Conducted research on emerging technologies for integration into existing systems.
- Tested software applications for bugs and compatibility and collaborated with developers to identify and resolve defects.
- Monitored system performance metrics and generated detailed reports on system errors.
- Created development plans outlining tasks and timelines and monitored applications for stability and performance.
- Project: https://github.com/TeamEiva/Eiva-userbot

TECHNICAL SKILLS

- Python & Scripting
- Software Development
- System Performance Monitoring
- Project Documentation & Reporting
- Software Testing & Debugging
- Git & Version Control
- WordPress
- Team Collaboration & Communication

CORE STRENGTHS

- **Initiative & Ownership** — takes responsibility for tasks and follows them through to completion.
- **Collaborative Leadership** — communicates clearly, supports teammates, and helps keep work aligned toward a common outcome.
- **Problem-Solving Mindset** — approaches technical issues systematically and focuses on practical solutions.
- **Adaptability & Continuous Learning** — quickly adapts to new tools, workflows, and development practices.

EDUCATION

Bachelor of Computer Applications (BCA) — Galgotias University, Greater Noida | 2027 (Expected)

CERTIFICATIONS

- Python Bootcamp — LetsUpgrade, in collaboration with NSDC, TME Edutech Training Pvt. Ltd., and CDAC MAD.
- Database Programming with SQL — Oracle Academy.

LANGUAGES

Hindi, English
